About Me

UI/UX Designer with 3.5+ years of experience designing intuitive digital products for websites, web applications, SaaS platforms, and CRM systems. Skilled in user research, wireframing, prototyping, high-fidelity UI design, and usability testing. Experienced in collaborating with developers and stakeholders to deliver user-centered solutions while maintaining consistency through design systems and guidelines.

Experience

Get Levrg — Specialist UI/UX Designer

Jan-2025 - Present

House: 5, Level: 3-5, Road: 6A, Baridhara Block: J, Dhaka: 1212.

Website | Custom Web Application | Landing Page | Business Analysis

- Designed and optimized user interfaces for marketing tools and platforms, enhancing user engagement and conversion rates.
- Conducted UX research, A/B testing, and competitive analysis to improve user journeys and digital experiences.
- Developed wireframes, prototypes, and high-fidelity designs using Figma, ensuring brand consistency across digital channels.

Debuggers Studio — UI/UX Designer

Jun-2024 - December-2024

House- 12 Road-9, Uttara, Dhaka-1230

Website | Custom Web Application | Mobile Application

- Led the design of intuitive and visually appealing interfaces for web applications, focusing on enhancing user engagement and ease of use.
- Focused on improving the usability and user flow of SaaS platforms, conducting user research and usability testing to create user-centered designs.
- Worked closely with developers, project managers, and stakeholders to ensure that design visions were effectively implemented, balancing user needs with technical constraints.

Uniclients Technologies —— Junior UI/UX Designer Jun-2023 - May-2024

1st Floor, Homestead Gulshan Link Tower, Gulshan Badda Link Rd, Dhaka 1212

Website | Saas | Mobile Application | Dashboard

- Created responsive website designs that maintain consistency across different screen sizes, incorporating modern design trends and accessibility best practices.
- Conducted A/B testing, gathered user feedback, and iterated on designs to improve overall product usability and user satisfaction.
- Proficient in using tools like Figma, Adobe XD, and Sketch for wireframing, prototyping, and designing complex interfaces

Project

Empellor CRM For MSP

✨ At Empellor CRM, I designed intuitive CRM solutions for MSPs, enhancing user experience, automation, and customer retention. My work streamlined operations, optimized sales processes, and contributed to a scalable system that helped MSPs drive growth.

Creador de cv (CV Builder)

✨ At Creador de CV our mission is to help individuals unlock their full potential by providing the tools and guidance to create standout resumes and CVs. We aim to simplify the job application process, making it accessible and stress-free for everyone, regardless of their background or career stage.

Gezond-Werken ROI Tools (ROI Calculation Tools)

✨ Designed an intuitive dashboard for analyzing ROI from organizational wellness programs. Focused on visualizing key metrics such as absenteeism, productivity, retention, and presenteeism, enabling data-driven decision-making. Delivered user-friendly interfaces that simplify the tracking and comparison of cost-saving opportunities.

Debuggers Studio

✨ Designed the UI/UX for Debuggers Studio's agency website, focusing on showcasing the company's services in web apps, mobile applications, SaaS, and websites. Created a modern, responsive design to engage potential clients and highlight the studio's expertise.

Visathing

- Designed and developed the UI/UX for Visathing, focusing on a user-friendly interface for visa-related information. Ensured seamless navigation and optimized the platform for both web and mobile users, improving accessibility and user engagement.

DermaGlow

- Designed the UI/UX for Dermaglow, a ThemeForest project focused on skincare and dermatology. Created a visually appealing, responsive theme with a strong emphasis on user experience, catering to clients in the beauty and wellness industry.

Case Study

AI Academy (AI Consultant)

- Conducted a UI/UX case study on AI Academy, an AI consultant course-selling platform. Identified user experience challenges related to course navigation and conversion optimization, and proposed design solutions to enhance user engagement and streamline the course purchase process.

Fabit(Habit Building)

- Worked on the UI/UX case study for Fabit, a habit-building app. Analyzed user behavior and pain points to design an intuitive interface, improving user motivation and engagement through features that promote habit tracking and goal-setting.

Triple(Travel Booking App)

- Conducted a UI/UX case study for Tripl, a travel booking app. Focused on improving user experience by simplifying the booking process, enhancing search functionality, and optimizing navigation for better usability and customer satisfaction
